

Support materials by MM Publications anywhere and anytime

To pursue our mission of spreading knowledge during a period defined by novel educational challenges, we have created a **Teacher Support Package** providing schools around the world with digital content aimed at transferring learning into the digital world.

Our **Teacher Support Package** consists of five digital solutions for partners of MM Publications:

1) **ELT Skills**

Complimentary access codes to our free-standing Learning Management System are offered to language schools affected by closures related to the virus.

2) **ELT School**

Full access to our platform is granted free of charge to students using our coursebooks, for practice through the end of the academic year.

3) **Readers & Video Courses**

A selection of Little Books, Primary Readers and Video Courses for students of various levels in English are available on our website.

4) **Student's Area**

Additional resources for students who are using our coursebooks are accessible via the Student's Area of our website.

5) **Downloadable Materials for Teachers**

Downloadable materials for teachers of Pre-Primary, Primary and Secondary English are accessible via the Teacher's Area of our website.

For questions regarding the contents of the **Teacher Support Package**, please contact your local MM Publications representative.
